PURDUE UNIVERSITY

VOLUME 35

January 1955 - December 1955

EDITED BY THE
AGRICULTURAL INSTITUTE OF CANADA
OTTAWA, CANADA

Published bi-monthly by the authority of the Chairman of the National Committee on Agricultural Services

SUBJECT INDEX TO VOLUME 35

PAGE

Alcoholic fermentation in the stomachs of lambs fed high-glucose diets, Note on 511
Alfalfa, Effect of bacterial wilt on hay yield of irrigated 202
Alfalfa, Flower colour inheritance in diploid and tetraploid 461
Alfalfa in Manitoba, The distribution and pathogenicity of the fungi associated with crown and root rotting of 309
Alfalfa, Techniques for rooting cuttings, chromosome doubling and flower emasculation in 58
Anion-exchange resins in phosphorus fertility studies, The use of 36
Anomalous cross between *Hordeum leporinum* and *Hordeum vulgare*, An 287
Antibiotics, Seed treatment of forage legumes and grasses with three 259
Apple in British Columbia, Magnesium deficiency in 350
Apple scions as influenced by the use of various rootstock-interstock varietal combinations, Growth and yield of McIntosh 492

Barley, An anomalous cross between *Hordeum leporinum* and *Hordeum vulgare* 287
Barley, Reliability of prediction tests for malting quality of 252
Bacteria in their relationship to flavour development in Cheddar cheese, Chromatographic studies on proteolytic 337
Bacterial wilt on hay yield of irrigated alfalfa, Effect of 202
Beef cows on winter range, Climatic effects on foraging performance of 213
Bee, Further studies on the chemotherapy of diseases of the honey- 189
Bees (Hymenoptera: Apidae) as pollinators of alfalfa in Southern Alberta, Factors affecting efficiency of honey 422
Blueberry production, Floristic changes following the cutting and burning of a woodlot for 143
Boron requirements of stone fruit trees, The 282
Botrytis leaf spot on onions and its control 358
Broccoli, Inheritance of white petal in green sprouting 573

Calorimetry of feedstuffs, A comparison of peroxide- and oxygen-bomb 366
Caterpillars on cabbage in the Ottawa Valley, 1953-54, Studies on 568
Cheese, Chromatographic studies on proteolytic bacteria in their relationship to flavour development in Cheddar 337
Cheese coating materials, Paraffin and microcrystalline waxes as 153
Chemotherapy of diseases of the honeybee, Further studies on the 189
Cherry, Sweet cherry foliage indicator hosts for the virus that causes little 595
Clay soil, The effects of two soil conditioners on some physical properties of a Brookston 51
Climatic effects on foraging performance of beef cows on winter range 213
Clover root rot in southwestern Ontario, Importance of the sweetclover weevil in spread of sweet 606
Colorimetric and ultraviolet absorption test for diagnosis of plant virus diseases as applied to stone and small fruits, Evaluation of a 111
Colour inheritance in diploid and tetraploid alfalfa, Flower 461
Coordinated soil-plant analysis:
III. Exchange equilibria in soil suspensions as possible indicators of potassium availability 181
Cropping in the greenhouse on the phosphorus supplying power of soils, The effect of continued 101

PAGE

Cropping in the greenhouse on the potassium supplying power of soils, The effect of continued ... 397
Crop sequence studies on irrigated land in southern Alberta ... 564
Crop yield and to the requirement of the tomato for phosphatic fertilizer, The relationship of soil phosphorus tests to ... 11
Cucumber, Toxicities of various insecticides to ... 19

Dairy calves with a limited amount of milk, Raising ... 454
Desiccants for the pre-harvest treatment of legume seed crops, The use of ... 83
Digestibility of dried ground seaweed meal by the laying hen, The ... 168
Distribution of vegetative buds on the underground parts of leafy spurge (*Euphorbia esula* L.) ... 76

Exchange equilibria in soil suspensions as possible indicators of potassium availability ... 181
Expression of leaf-roll phloem necrosis in potato tubers ... 42

Feedstuffs, A comparison of peroxide- and oxygen-bomb calorimetry of ... 366
Fertility studies on soil types:
V. The effect of continued cropping in the greenhouse on the phosphorus supplying power of soils ... 101
VI. The effect of continued cropping in the greenhouse on the potassium supplying power of soils ... 397
Fertility studies on some New Brunswick soils:
I. Soil phosphorus supply as shown by greenhouse and chemical tests ... 388
Fertilizer studies with radioactive sulphur. II ... 264
Fertilizer, The relationship of soil phosphorus test to crop yield and to the requirement of the tomato for phosphatic ... 11
Field shelter belts on wind velocity, evaporation, soil moisture and crop yield, The influence of ... 440
Flax, Experiments with (Reaction of small grains to various densities of wild mustard and the results obtained after their removal with 2,4-D or by hand) ... 193
Floristic changes following the cutting and burning of a woodlot for blueberry production ... 143
Flor yeasts, Note on the growth of ... 211
Flower colour inheritance in diploid and tetraploid alfalfa ... 461
Fruits, Evaluation of a colorimetric and ultraviolet absorption test for diagnosis of plant virus diseases as applied to stone and small ... 111
Fruit trees, The boron requirements of stone ... 282
Foraging performance of beef cows on winter range, Climatic effects on ... 213
Fungi associated with crown and root rotting of alfalfa in Manitoba, The distribution and pathogenicity of the ... 309
Fungicides on seedling diseases of legumes and grasses in Saskatchewan, The effect of 329

Genesis and morphology of the Oneida and Haldimand series—Grey-Brown Podzolic soils in Ontario ... 500
Grains to various densities of wild mustard and the results obtained after their removal with 2,4-D or by hand, Reaction of small:
I. Experiments with wheat ... 68
II. Experiments with flax ... 193

Ham and carcass quality, Relationships between certain measurements of ... 95
Ham quality, Appraisal of certain methods for evaluation of ... 91

PAGE

Hay yield of irrigated alfalfa, Effect of bacterial wilt on 202
Hen, The digestibility of dried ground seaweed meal by the laying 168
Herbicide 3-(p-chlorophenyl)-1,1-dimethylurea (CMU), Penetration of and persistence in soil of the 377
Honeybee, Further studies on the chemotherapy of diseases of the 189
Honey bees (Hymenoptera: Apidae) as pollinators of alfalfa in Southern Alberta, Factors affecting efficiency of 422
Hordeum leporinum and *Hordeum vulgare*, An anomalous cross between 287

Insecticides to cucumber, Toxicities of various 19
Insecticides to the sweetclover weevil, *Sitona cylindricollis* Fahr. (Coleoptera: Curculionidae), and the protection of seedling crops, Toxicities of certain 344
Insolation in Canada, A preliminary estimate of the average 579
Irrigated land in southern Alberta, Crop sequence studies on 564
Irrigation and chemical fertilization on the yield and protein content of a pasture mixture, The effects of 1

Laboratory evaluation of soil conditioners, Factors affecting the 27
Lambs fed high-glucose diets, Note on alcoholic fermentation in the stomachs of .. 511
Lard by baby pigs, The utilization of 371
Leaf-roll phloem necrosis in potato tubers, Expression of 42
Leaf-roll vine symptoms, Rate of development of potato 48
Leafy spurge (*Euphorbia esula* L.), Distribution of vegetative buds on the underground parts of 76
Leafy spurge (*Euphorbia esula* L.), The reproductive capacity of vegetative buds on the underground parts of 477
Legumes and grasses in Saskatchewan, The effect of fungicides on seedling diseases of 329
Legume seed crops, The use of desiccants for the pre-harvest treatment of 83

Magnesium deficiency in apple in British Columbia 350
Malting quality of barley, Reliability of prediction tests for 252
Manure and commercial fertilizer in a long-term soil fertility experiment, The comparative effects of 229
Milk, Raising dairy calves with a limited amount of 454
Mould growth on the digestibility and feeding value of grains for swine and sheep, The effects of 525

Nectar secretion in relation to nitrogen supply, nutritional status, and growth of the plant 124
Nutritional value of rapeseed oilmeal, The 242

Oneida and Haldimand series-Grey-Brown Podzolic soils in Ontario, Genesis and morphology of the 500
Onions and its control, Botrytis leaf spot on 358

Paraffin and microcrystalline waxes as cheese coating materials 153
Pasture mixture, The effects of irrigation and chemical fertilization on the yield and protein content of a 1
Penetration of and persistence in soil of the herbicide 3-(p-chlorophenyl)-1,1-dimethylurea (CMU) 377
Performance testing of rams, The concentrate to roughage ratio in the ration as it affects the 518

PAGE

Peroxide- and oxygen-bomb calorimetry of feedstuffs, A comparison of 366
Pesticides to soil, Effects of repeated applications of 433
Phosphorus fertility studies, The use of anion-exchange resins in 36
Phosphorus tests to crop yield and to the requirement of the tomato for phosphatic fertilizer, The relationship of soil 11
Phosphorus supplying power of soils, The effect of continued cropping in the greenhouse on the, ... 101
Pigs, The utilization of lard by baby 371
Potassium supplying power of soils, The effect of continued cropping in the greenhouse on the 397
Potassium availability, Exchange equilibria in soil suspensions as possible indicators of 181
Potatoes, The influence of certain cultural practices on solanine content and tuber yields in Netted Gem 485
Potato leaf-roll vine symptoms, Rate of development of 48
Potato leaf-roll, Tuber graft transmission of 238
Potato tubers, Expression of leaf-roll phloem necrosis in 42
Potato yields, The relationship between available soil moisture levels and 552
Potatoes to certain microscopic observations of the raw and cooked product, The relationship of mealiness in cooked 513
Poultry, Snow as a water replacement for 175

Radioactive sulphur, Fertilizer studies with. II 264
Rams, The concentrate to roughage ratio in the ration as it affects the performance testing of 518
Rapeseed oilmeal, The nutritional value of 242
Reaction of small grains to various densities of wild mustard and the results obtained after their removal with 2,4-D or by hand:
I. Experiments with wheat 68
II. Experiments with flax 193
Relationship of soil phosphorus tests to crop yield and to the requirement of the tomato for phosphatic fertilizer, The 11
Rhinitis on weight for age in swine, The effect of infectious atrophic 139
Rooting cuttings, chromosome doubling and flower emasculation in alfalfa, Techniques for 58
Root rotting of alfalfa in Manitoba, The distribution and pathogenicity of the fungi associated with crown and 309
Rotary sprinklers, Water distribution patterns from 217

Seaweed meal by the laying hen, The digestibility of dried ground 168
Seedling diseases of legumes and grasses in Saskatchewan, The effect of fungicides on 329
Seed treatment of forage legumes and grasses with three antibiotics 259
Shelterbelts on wind velocity, evaporation, soil moisture and crop yield, The influence of field 440
Snow as a water replacement for poultry 175
Sodium and potassium on growth and mineral content of flue-cured tobacco, Interaction of 294
Soil conditioners on some physical properties of a Brookston clay soil, The effects of two 51
Soil conditioners, Factors affecting the laboratory evaluation of 27
Soil fertility experiment, The comparative effects of manure and commercial fertilizer in a long-term 229

PAGE

Soil-plant analysis, Coordinated:
III. Exchange equilibria in soil suspensions as possible indicators of potassium availability ... 181
Soil of the herbicide 3-(p-chlorophenyl)-1,1-dimethylurea (CMU), Penetration of and persistence in ... 377
Soil phosphorus tests to crop yield and to the requirement of the tomato for phosphatic fertilizer, The relationship of ... 11
Soil sequence in the Temiskaming District of Ontario, Brown Forest-Grey Wooded 538
Soils, Fertility studies on some New Brunswick:
I. Soil phosphorus supply as shown by greenhouse and chemical tests ... 388
Soil types, Fertility studies on:
V. The effect of continued cropping in the greenhouse on the phosphorus supplying power of soils ... 101
VI. The effect of continued cropping in the greenhouse on the potassium supplying power of soils ... 397
Soils in Ontario, Genesis and morphology of the Oneida and Haldimand series-Grey-Brown Podzolic ... 500
Soil formation in Manitoba, Influence of the composition of parent materials on ... 407
Soil, Effects of repeated applications of pesticides to ... 433
Sowthistles in northeastern North America, The perennial ... 601
Sprinklers, Water distribution patterns from rotary ... 217
Squash vine borer in southwestern Ontario, Notes on life-history and habits of the ... 533
Sulphur, Fertilizer studies with radioactive. II ... 264
Sunflower, Field studies on the inheritance of resistance to rust in the cultivated ... 557
Sweetclover weevil, *Sitona cylindricollis* Fahr. (Coleoptera: Curculionidae), and the protection of seedling crops, Toxicities of certain insecticides to the ... 344
Swine and sheep, The effects of mould growth on the digestibility and feeding value of grains for ... 525
Swine, The effect of infectious atrophic rhinitis on weight for age in ... 139

Techniques for rooting cuttings, chromosome doubling and flower emasculation in alfalfa ... 58
Tobacco, Interaction of sodium and potassium on growth and mineral content of flue-cured ... 294
Tomato for phosphatic fertilizer, The relationship of soil phosphorus tests to crop yield and to the requirement of the ... 11
Tomato, Some factors affecting earliness in the ... 300
Toxicities of various insecticides to cucumber ... 19
Toxicities of certain insecticides to the sweetclover weevil, *Sitona cylindricollis* Fahr. (Coleoptera: Curculionidae), and the protection of seedling crops ... 344

Water distribution patterns from rotary sprinklers ... 217
Wheat stem rust, The reaction of foundation stock lines of Selkirk wheat to some physiologic races of ... 323
Wild mustard and the results obtained after their removal with 2,4-D or by hand, Reaction of small grains to various densities of:
I. Experiments with wheat ... 68
II. Experiments with flax ... 193

Yeasts, Note on the growth of flor ... 211
